

JULY 2025

# CONNECTIONS

## From the CEO

Chad Graves, Chief Executive Officer

**This is an exciting time for Ent members, as we celebrate the future merger with Wings Credit Union.**

To ensure a bright future of member support and community service, Ent's leaders and board have long been considering strategic growth opportunities. It was of the utmost importance to us that there be an alignment with our service mindset, culture and strategy. Wings Credit Union mirrored our ideals. Together, we will do even more to make a positive difference for the communities we serve.

For now, you won't experience any changes. **Your same local Ent service centers and friendly Ent teams** are here to serve you. Post-merger, our goal is to provide products, services and benefits that both wow you AND stay local – serving you and our communities. Growing via this merger will help us accomplish both!

In addition to shared values, Wings' roots are also in aviation. Founded in 1938 by 7 Northwest Airlines employees, Wings is Minnesota's largest credit union. Based in Minneapolis, it has locations in Florida, Georgia, Michigan and Wisconsin.

Once the merger is complete, our name will be Wings Credit Union. Given our common aeronautic legacy and joint commitment to upward achievement, it's a natural fit.

For now, it will be business as usual over the next several months while we work through regulatory and other approvals. Please know that throughout this process we'll share with you – well in advance – any changes and steps you may need to take.

This merger of equals will combine the best of both credit unions. I look forward to sharing with you the future benefits it will bring.

## Protect yourself from spoofing

More and more often, criminals posing as trusted companies are tricking people out of their personal information, and then their money. They call, text, and may even claim to be from Ent. To protect yourself:

- Don't trust caller ID alone – it can be faked
- Never share personal info, passwords, or codes via phone or text
